

BLACK RIVER CAVIAR

## THE PRESIDENT OF THE REPUBLIC DESCRIBES BLACK RIVER CAVIAR'S WORK AS EXEMPLARY

November 30, 2015

*President of the Republic, Dr. Tabaré Vázquez, accompanied by some of his Ministers, visited our production plant in Baygorria, on Monday, November 23.*

On Monday, November 23, the President of the Republic, Dr. Tabaré Vázquez, accompanied by some of his Ministers, visited our production plant in Baygorria, Durazno, as that day the Council of Ministers was holding a meeting in this department.

After going through the sturgeons breeding centers and familiarizing with the production process, Dr. Vázquez described *Black River Caviar's* work as exemplary, and highlighted that the country must support this kind of enterprises. In his words, it is a high

quality project, responsibly developed with products recognized worldwide for their quality, which contributes to the strengthening of Uruguay's productive image abroad.

According to Dr. Vázquez, "Uruguay is proud of this work." On the other hand, in *Black River Caviar* we are proud of this great acknowledgement.

At the end of the tour, we were pleased to honor the President and his companion with an exclusive tasting of our caviar.

You can watch the video of the President's visit [here](#).
