

BLACK RIVER CAVIAR

BLACK RIVER CAVIAR ARRIVES TO THE MIDDLE EAST

December 2, 2016

Black River Caviar reaches the Middle East thanks to Black River LLC, our strategic partner with offices in Dubai, in charge of providing high-quality products to hotels and restaurants in the region.

Black River Caviar continues to develop its position as a global brand, with presence in over a dozen countries around the world. As of December, we will also distribute our products in the Middle East, thanks to our strategic partner, Black River LLC.

Black River LLC's business, with main offices in Dubai, is the import and sale in the Middle East of high-end gastronomic products, to restaurants and hotels, as well as individual clients. The company chooses food providers which stand out due to their eco-friendly agriculture and high-quality proposal, in order to reach the most demanding clients of the market.

Therefore, the fact that our caviar was included in their list of products is an outstanding recognition.
